Orange County Recreation Division Mission Statement

DEAPR-Recreation Division exists to provide Orange County residents of all ages, backgrounds, abilities, and interests with a wide-variety of affordable recreation programming, open access to recreation facilities and opportunities for all people to gather, celebrate, and engage in activities that promote healthy lifestyles, teach important life skills and build a stronger community.

Player Draft

All eligible players will be assigned to teams through a ratings and draft process. The draft process is as follows:

Objective

The objective of Orange County Department of Environment, Agriculture, Parks and Recreation – Recreation Division draft/ratings procedure for athletic leagues is to ensure that each parent, participant, and coach are given the opportunity to participate in a fun, enjoyable, and fair athletic league.

Attendance

All participants must register prior to the assessment to participate in the league. It is mandatory that all coaches and participants attend their designated draft day and time. Players that do not attend a draft will not be assigned onto teams until such time as they complete their assessment commitment. A coach (or team representative) who does not attend the draft/ratings will be assigned a team by Orange County Department of Environment, Agriculture, Parks and Recreation Personnel.

Participant Responsibilities

1. To attend the mandatory scheduled ratings for your league's division or age group.
2. To participate in the ratings skills and/or drills. (Participants should be dressed in the appropriate attire to athletically participate, i.e. sneakers, shorts or sweats and shirt.)
3. Following a participant's assessment he/she is permitted to leave. A call from your selected coach or DEAPR personnel shall be made no later than two days prior to the start of practices. (At the time the coaches contact their players they will be notified of practice times and locations.)

Coach Responsibilities

1. To attend the mandatory schedule rating and draft day/time for the age division/league that you have volunteered to coach.
2. To fairly assess each participant in your coaching age/division attending the ratings/draft using the DEAPR draft/ratings sheet.
3. Select each player to your roster using the DEAPR draft/ratings procedure.
4. Contact each player you have selected onto your team to notify them of your practice schedule and location.

Open draft

The purpose of the open draft is to permit all volunteer coaches to select members of their team using an average ratings scoring system, which has been agreed upon by the DEAPR staff. This system is in place to best fairly distribute each player on a team. However, this does not guarantee each team will complete the season with identical records. Team records are impacted by many factors, including player attendance at practices and games.

Assessment Process

1. All players must attend their scheduled assessment time. A player is allowed a 10-minute grace period for start of assessments. If a participant arrives past that 10-minute period, (s)he is not allowed to participate and must instead reschedule for another assessment.
2. Participants that arrive early must wait until their scheduled assessment time.
3. Operate assessment “drills” as follows:
 - a. Have participants form two lines based on assessment number and drill through cones and take a shot on goal. After taking the shot on goal then players are responsible for retrieving their ball and passing it to the next person in line.
4. Following “drills” players will participate in a scrimmage.
5. Following each player’s scrimmage (s)he may leave the assessment. The player will be contacted by his/her coach no later than two days prior to the start of practices.
6. As the players are participating in assessment process, coaches within the division evaluate players as follows:
 - a. Coaches are provided with an assessment sheet to assist with evaluating individual player’s skills in dribbling, passing, shooting, and running. Coaches are encouraged to evaluate players for sportsmanship and temperament including following directions and knowledge of rules.
 - b. Calculate ratings as an average score on a scale of 1 to 5, with 1’s being stronger players and 5’s being players who need additional coaching.
 - c. Coaches’ assessment ratings are combined with a post-season assessment from the child’s previous coach (provided that rating occurred within the last 12 months and was for the same division in which the player is re-entering) to determine an average assessment.

Draft Order

Youth Soccer Leagues will employ a snake draft method. Each coach will pick out of a hat a number designated one for each team in the division (for example: a 6 team division will have numbers 1, 2, 3, 4, 5 and 6). The corresponding selected number will be the coach drafting order. The first round (and all odd numbered rounds) will begin with coaches drafting in sequential order, with the coach drawing “1” taking the first pick, coach drawing “2” taking the second pick, and so on. The round continues until all coaches have made a selection. The second round (and all even numbered rounds) will begin with the coaches drafting in reverse sequential order, with the coach drawing the highest number taking the first pick and continuing downward until all coaches have made a selection.

Example using a 6-team league with 60 players:

Team 1	Team 2	Team 3	Team 4	Team 5	Team 6
1	2	3	4	5	6
12	11	10	9	8	7
13	14	15	16	17	18
24	23	22	21	20	19
25	26	27	28	29	30
36	35	34	33	32	31
37	38	39	40	41	42
48	47	46	45	44	43
49	50	51	52	53	54
60	59	58	57	56	55

Draft Rounds

Youth Soccer Leagues will employ a rolling draft process as follows:

- a. Using average player ratings, draft-eligible players are sorted by assessment into a ranked order. This ranked order forms the complete draft board.
 - i. In the case of a tie, players are arbitrarily ranked by assessment number
- b. At any given time, the frame of players eligible to draft is equal to the number of teams in the division (i.e. for a 6-team division, only six players at a time are draft-eligible). To begin the draft, the first ‘X’ number of players (again, based on the number of teams in the division) from the ranked draft board are draft-eligible.
- c. Once a selection is made and that player effectively comes off the draft board, the draft frame rolls down one player to maintain the number of eligible players equal to the number of teams in a division (i.e. for a 6-team division, the first pick is of players ranked 1 through 6. After a player is chosen, player 7 now becomes draft-eligible to the next coach making a selection.)
- d. At such a time that a “frozen player” (i.e. player frozen by coach or sibling of player previously chosen – see “freezes” below) rolls into the draft frame:
 - i. If that player is frozen by the coach making the selection, that player is automatically drafted to the selecting team and the draft process continues on.
 - ii. If that player is frozen by a coach other than the team currently making the selection, the draft frame rolls down two players. Being already locked to a team, the frozen player is technically not draft-eligible. Therefore, the draft frame rolls one additional player to ensure that the selecting coach has the appropriate number of players available for selection based on the number of teams in the division.
 - iii. Once the coach with a freeze on that child comes up to draft, that child must automatically be selected by that coach. The draft frame will not roll at that point because a frozen player has come off the frame, and the number of draft-eligible players will remain the same to the next coach.
 - iv. Exception-In rounds 1-3 (in a 6-team division), players ranked 1-6 are first round draft picks, players 7-12 are second round draft picks, and 13-18 are third round draft picks. In the first three rounds, if a coach’s freeze from a lower round rolls into the draft frame due to other teams’ freezes, the coach will have the options to

take a player from a higher round or their freeze. If they did not select their freeze, the freeze must be drafted the following round. This exception expires after the third round.

Freezes

A maximum of 2 freezes are allowed per team. Freezes are limited to:

- a. Coach's child(ren)
- b. Assistant coach's child(ren)
- c. Child with whom coach has familial or mentorship relationship

The penalty for multiple frozen players is as follows:

- Freezes that are not rated as first round draft picks (i.e. in a 6-team division, Players 1-6), a coach will automatically receive the last position in the drafting order (i.e. Pick 6 in 6-team division).
- If multiple teams have 2 freezes that are rated as first round draft picks, those teams will randomly draw a number from the final positions of the drafting order. For example, if 2 teams have 2 players rated as first round draft picks in 6-team division, those two coaches will randomly draw from #'s 5 and 6.

Gender

In co-ed divisions each team shall include on its roster a comparable number of girls and boys with each other team in the division.

Rosters

Rosters are set as of the first team practice.

A player must play on the team that he/she is assigned to through the draft process and may only switch teams at the discretion of the Recreation Division.

Teams that have players drop may request a replacement player, if available.

Knowingly permitting a player to participate in a game without having registered for the program shall result in ejection for the remainder of the league/activity season
