- **Support Circles** are teams of volunteers from faith- and community-based groups partnering with individuals and families transitioning out of homelessness into permanent housing.
- The Circles function as a support network, providing assistance with everything from job searching and financial planning to goal-setting, child care, and emotional support.
- They empower individuals and families with the skills necessary to retain permanent housing and economic independence while improving the quality of their lives.

Learn how to start or join a Support Circle with your congregation, your work colleagues, your friends, or your family.

Together we CAN end homelessness in Orange County!
